

8 November 1963

- STATINTL

MEMORANDUM FOR:

SUBJECT : "Research Papers"

1. There is now in process of production a "research paper" on the Italian Christian Democratic Party. It was agreed when approval was given for the production of this paper that it would not be considered a precedent but that the question of research papers would be examined. In anticipation of a meeting to discuss this general subject, I would like each of you to consider the pros and cons of instituting such a publication vehicle, and if you think it desirable, to consider the criteria, mechanics of production, etc.

2. The meeting is scheduled for 1100, 13 November in my office.

STATINTL

Deputy Assistant Director
